

## Waiver of Liability for HackUWIN

Henceforth, all first person pronouns will refer to either to the HackUWIN participant or, if the participant is a minor (under 18 years of age), the legal parent or guardian of a minor acting on behalf of said minor.

I wish to participate in the HackUWIN software and hardware development contest (Hackathon). I hereby agree to comply with all of the HackUWIN rules and procedures and to act in accordance with the instructions of HackUWIN officials. I understand that, should I violate any of the aforementioned guidelines, I will be subject to the consequences deemed appropriate by the HackUWIN officials. Such consequences may involve the revocation of prizes and/or rejection from participation from future HackUWIN Hackathons.

I verify that I have represented myself accurately on my application and in any subsequent information provided for HackUWIN officials. I understand that I may create the concept for my project or the project of my team (My Project) before I arrive at the contest, but all development on My Project will take place on the University of Windsor campus between 25-27 July, 2014, unless stated otherwise by a HackUWIN official.

I understand that HackUWIN will not claim ownership on My Project, but I hereby represent and warrant that all of the work on My Project is original to me or to my team and was produced during the event. That said, I also understand that my team can use publicly available code to produce My Project, as long as the license on that code allows such use and would allow My Project to be produced and marketed in commerce without further payment or restriction. I agree to allow HackUWIN officials or judges to view code from My Project for the purpose of judging and that the ruling of the judges is final. HackUWIN has no ownership interest in My Project and therefore has no liability for any legal or contractual issues that arise from My Project. I hereby agree to indemnify, hold harmless and defend HackUWIN and University of Windsor against any liability related to My Project. HackUWIN and University of Windsor are not liable for any emotional or physical damage to me, as well as physical damage to my computer, other equipment, and personal items, including the case of theft of my belongings. However, I am liable for any damage I may cause to HackUWIN or University of Windsor property. Food is provided by outside vendors and HackUWIN is disavowed of any liability for meeting any food related standards. HackUWIN and University of Windsor are not liable for any consequential, punitive, secondary, speculative, special or incidental damages, and have no liability in any case and under any theory of action, even if they had been advised of the likelihood of such damages occurring.

I hereby grant HackUWIN permission to use my photo or video image and the demo of My Project freely for any purpose, and I specifically grant permission to use these images or demo in marketing for HackUWIN.

I acknowledge that I am responsible for respecting humankind and the hacking community at large by conducting myself in a manner deemed appropriate by the HackUWIN officials and not being abusive to other individuals during the event.
